NOTES

Please keep a copy of this document for your records and make a note of the date that it was provided to your neighbour.

¹ Under section 245XK of the *Building Act 1975*, urgent fencing work may be undertaken if all or part of a dividing fence forming part of a pool barrier is damaged or destroyed and urgent fencing work is required.

² If agreement is not reached within one month after this notice is given, either of the parties involved can apply to the Queensland Civil and Administrative Tribunal (QCAT) for an order about the contributions for the fencing work under section 245XQ of the *Building Act 1975*. Such an application must be made within two months after this notice is given. In considering an application, the Tribunal will apply the rules relating to pool barriers on common boundaries set out in the *Building Act 1975*.

³ Fencing work can involve constructing a new fence, repairing or modifying an existing fence or replacing a fence. It can also include surveying or preparing land, including trimming, lopping or removing vegetation along or on either side of the common boundary of adjoining lands.

⁴ What is a reasonable standard will depend on the condition of the fence before the damage or destruction.

⁵ If urgent fencing work has been done by an owner and the adjoining owner is responsible for all or some of the costs of the fencing work under section 245XH of the *Building Act 1975*, the owner can require the adjoining owner to contribute the adjoining owner's share of any reasonable cost incurred for the urgent fencing work by giving a notice to the adjoining owner. Reasonable costs for the work may include the cost of using a temporary fence as part of a pool barrier if the use of the temporary fence was reasonable.
